

If you're not the Lead Dog...

...the scenery never changes.

AMERICA'S LEADER IN TRUCK TANK TECHNOLOGY

ENGINEERING

First Manufacturer of DOT 406 Cargo Tanks to Voluntarily Submit Design to Department of Transportation, Washington, DC

On Staff Design Certifying Engineer (M.I.T. Graduate)

STRENGTH

Press Brake Formed Components
Extruded Box Girder Top Rails
Extruded Wide Flanged Box Sills

SAFETY

Low Center of Gravity Profile
Betts LED Lights
Double Welded Construction

QUALITY

Alcoa Al-Bright Premium Aluminum
Modern 50,000 SF ASME "U" Stamp Facility for On Time Tank Deliveries

SUPPORT

Experienced Local Distributors Who Understand Your Needs and the Importance of Quality Service to Keep Your Fleet Productive

"We bought our first Trans-Tech tank in 1994 and have been impressed with the quality of construction and the enduring value of the tank. When our entire Trans-Tech fleet moves out for deliveries, we can feel confident that the installation of the tank and equipment by Mike Fournier and George Eosco at Truck & Auto of Waltham assures that the load is secure, the drivers are safe and product will be delivered on time."
